Amendment No. 6 offered by Mr. PAUL:

SEC. 801. None of the funds appropriated in this Act may be used for any United States contribution to the United Nations or any affiliated agency of the United Nations.

The Chair recognizes the gentleman from Texas (Mr. *Paul*).

Mr. PAUL. Mr. Chairman, I yield myself such time as I may consume.

Let me just read the amendment because it is just three lines. It says, "None of the funds appropriated in this act may be used for any United States contribution to the United Nations or any affiliated agency of the United Nations." It would defund the United Nations. It would take away the dues that we pay the United Nations as well as the amount of money that we are paying to pay our back dues.

I think this is an appropriate time to discuss the reasonableness for our support for the United Nations. The government of the United States has continued to grow as our state sovereignty has gotten much smaller, but now we are losing a lot of sovereignty to an international government which is the United Nations. Just recently, the United States was humiliated by being voted off by secret ballot from the U.N. Human Rights Commission and Sudan was appointed in our place. How could anything be more humiliating. So democracy ruled, our vote counted as one, the same value as the vote of Red China or Sudan. But the whole notion that

we would be put off the Human Rights Commission and Sudan, where there is a practice of slavery, is put on the Human Rights Commission should be an insult to all of us.

In committee, we dealt with this problem and we said, ``Well, if the U.N. straightens up, then we'll pay our dues this year; but maybe we'll withhold our dues next year." That is very, very weak; and it does not show any intent or show any rejection of what is going on in the United Nations.

It was mentioned earlier in debate on the gun issue that the U.N. is currently meeting up in New York dealing with the gun issue. There have been explicit proposals made at the United Nations to have worldwide gun control. No, they are not taking guns away from the government. They are taking guns away from civilians.

If anybody understands our history, they will know that taking guns from civilians is exactly opposite of what the Founders intended. In a nation like Afghanistan, they were able to defend the invasion of the Soviet Union because individuals had guns. Likewise, when the Nazis were murdering the Jews, the Jews had been denied the right to own guns. Now we are talking about the United Nations having international gun laws. There have been proposals made for an international tax on all financial transactions. Yes, it is true, it has not been passed, but these are the plans that have been laid and they are continued to be discussed and they are moving in that direction.

Today we have international government that manages trade through the WTO. We have international government that manages all international financial transactions through the IMF. We have an international government that manages welfare through the World Bank. Do these institutions really help the poor people of the world? Hardly. They help the people who control the hands of power in these international institutions and generally they help the very wealthy, the bankers, and the international corporations.

It was said the United Nations may have been set up to help preserve peace and help poor people, but it just does not happen. The poor pay the taxes and the international corporations gain the benefit.

The U.S. has taken a very strong position against endorsing the International Criminal Court.

The argument is legitimate. It says that, oh, someday the International Criminal Court may arrest Americans because it just may be that Americans may pursue illegal acts of war, like bombing other countries and killing innocent people.

No, we do not want the international court to apply to us, but it is okay with our money, our prestige and our pressure to endorse the International Criminal Tribunal for Yugoslavia, so that we can go in there and arrest the leaders that we have decided were the bad guys and leave the good guys alone, as if there were not bad guys on both sides in Yugoslavia.

But this presumption on our part that we can control the United Nations and arrest only those individuals that we do not like and allow the other ones to go free and that this will never apply to us, I think we are missing the point and it is a dangerous trend. Because you say, well, yes, we are powerful, we have the money and we have the weapons and we can dictate to the United Nations. They will not arrest us or play havoc with us. Yet at the same time we have already recognized that the U.N. Human Rights Commission which was voted on by a democratic vote kicked us in the face and kicked us off.

I think this is a time to think very seriously about whether this is wise to continue the funding of the United Nations. I think that a statement ought to be made. We should say, and the American people, I think, agree overwhelmingly that it is about time that we quit policing the world and paying the bills at the United Nations way out of proportion to our representation and at the same time being humiliated by being kicked off these commissions by majority vote.
